Course website: <http://www.math.binghamton.edu/math108/>

Text: *Math 108, Fall 2017 edition*, by Jean Brewster (at bookstore for about \$55; earlier editions are okay)

Grading: 90% of your grade is based on in-class exams and the final exam; 10% is 'discretionary,' based on quizzes, homework, attendance and participation. More about grading will be explained in class.

Phones: *Stash them, turned off when class starts. Texting etc. affects discretionary grade.*

Attendance: The discretionary 10% rests partly on attendance and participation. Lateness and texting in class are tallied into attendance

Dates of in-class exams: Sept 19, Oct 12, Nov 7, Dec 5 (the final exam date is not yet determined)

Calculators and other electronic devices: Calculators are not to be used on quizzes or tests. They may be useful for homework assignments. Using any electronic device, including phone or calculator watches during quizzes or tests will result in a grade of zero.

Math Help: Available at the University Tutorial Services (UTS), the on-campus organization that oversees undergraduate tutoring for students. They offer small group tutoring for many math courses, including MATH 108 and MATH 220. The website is www.binghamton.edu/tutoring
