About Actuaries

The actuarial profession is one which focuses on evaluating the possible outcomes of a variety of risks and determining the possible impact they can have on an organization. In doing so, actuaries utilize a variety of both business and mathematical skills, utilizing advanced statistical models, financial valuation, computer programming, and organizational management.

What the Actuarial Association does

The Actuarial Association's primary goal is to assist students in their pursuit of a career as an actuary by helping them obtain the skills that they need to prepare them for their future careers. These skills may not be explicitly taught in the classes of the actuarial science major here at Binghamton. We aim to assist students with things such as interviewing, knowledge of the structure of businesses, computer programming, and working with Excel. Various events that we intend to host throughout the year include:

- Information Sessions
- Hosting Case Competitions
- Microsoft Excel Workshops
- Mentorship Program
- Resume Building/Critique
- Public Speaking Workshop
- Inviting recruiters to Binghamton University

Check out all of our upcoming events on our calendar

Our E-Board is here to help you pursue your actuarial profession

The officers of the Actuarial Association are:

- President: Nav Randhawa
- Vice President: Andrew Sulz
- Treasurer: Bryan Gellner
- Professional Development: Emmanuel Davis
- Event Coordinator: Shambhu Rajeev

News and Updates

- Cigna has just finished a big update of the website for our Actuarial Executive Development Program. It's got a lot of great info about the program as well as instructions for how to apply if anyone's interested. Please go to <http://www.cigna.com/careers/aedp> for more.

Want to get involved with the Actuarial Association?

You may meet fellow members of the association who have worked during the summer as actuary interns. You can get first hand information about the actuarial profession from them. You can request to join the e-mail list of the actuarial association, by sending an e-mail to actuarial@binghamtonsa.org.

Also, join the group on Facebook:  Actuarial Association Binghamton.
