

How do I register for Calculus

Math 223/224 - you need to register for the same section of each course. Sections 01-09 of 223/224 are linked together.

Ex: Math 223-01, Math 224-01

Math 224/225 - you need to register for the same section of each course. Sections 20-41 are linked together.

Ex: Math 224-20, Math 225-20

Math 224 only - there are no Math 224 classes in the first part of the term that are not linked to Math 225 classes so you can not take it until the second part of the term. Send an e-mail to kaz@math.binghamton.edu (Professor Kazmierczak - Director of Calculus) with the following information:

Please register me for Math 224 that starts in the second part of the term Your Name B# Time you can take it (8-9:30, 9:40-11:10 or 11:20-12:50)

You will be sent an e-mail sometime before the class starts telling you what discussion section to attend. You will then be registered for that class within a few days or week.

Math 225 only - there is only 1 section of Math 225 that is in the first part of the term. Once that is filled, you will have to take it the second part of the term. Send an e-mail to kaz@math.binghamton.edu (Professor Kazmierczak - Director of Calculus) with the following information:

Please register me for Math 225 that starts in the second part of the term Your Name B# Time you can take it (8-9:30, 9:40-11:10 or 11:20-12:50)

You will be sent an e-mail sometime before the class starts telling you what discussion section to attend. You will then be registered for that class within a few days or week.

Math 226/227 - you need to register for the same section of each course. Sections 01-12 of 226/227 are linked together.

Ex: Math 226-01, Math 227-01

Math 226 only - there are no Math 226 courses that meet the first part of the term that are not linked with Math 227 so you have to take it in the second part of the term. Send an e-mail to kaz@math.binghamton.edu (Professor Kazmierczak - Director of Calculus) with the following information:

Please register me for Math 226 that starts in the second part of the term Your Name B# Time you can take it (8-9:30, 9:40-11:10 or 11:20-12:50)

You will be sent an e-mail sometime before the class starts telling you what discussion section to attend. You will then be registered for that class within a few days or week.

Math 227 only - sections 40 and 41 are not linked with Math 226. You need to have a C- or better in Math 226 to take Math 227.
