

Research - Joseph Brennan

Broadly, I am an algebraist and group theorist. My main research focus is on finite p -groups. Specifically, I am interested in maximal subgroup conditions on p -groups, metabelian p -groups, commutators and autocommutators, investigating cyclic word subgroups, and investigating the Chermak-Delgado lattice of groups.

A short description of my research interests.

A detailed description of my research interests.

My collaborators:

- Luise-Charlotte Kappe of Binghamton University SUNY
- Elizabeth Wilcox of SUNY Oswego
- Lijian An of Shanxi Normal University, China (sxlj_alj@163.com)
- Haipeng Qu of Shanxi Normal University, China (orcawhale@163.com)
