

Statistics Seminar
Department of Mathematical Sciences

DATE:	Thursday, January 15, 2018
TIME:	1:15pm - 2:15pm
LOCATION:	WH 100E
SPEAKER:	Qiqing Yu, Binghamton University
TITLE:	Identifiability Conditions For The Linear Regression Model Under Right Censoring

Abstract

Under the semi-parametric linear regression model with right censoring, the necessary and sufficient condition for the identifiability of the parameters in the model has been an open problem and is presented in this paper. The consistency of the semi-parametric MLE and the Buckley-James estimator under this condition is studied.
