

## Math Education at Binghamton

For students interested in becoming math teachers, Binghamton offers:

- BA/ BS degrees in mathematics. Either the BA (Mathematics Track) or BS (Mathematics Track) is suitable preparation for a Masters in Teaching program,
- An undergraduate minor in Education
- A Master of Arts in Teaching (MAT) in Mathematics Adolescent Education
- Combined 3+2 program in BA in Mathematics and MAT in Mathematics Adolescence Education

The 3+2 program allows well-prepared students to complete the Mathematics BA and Master of Arts in Teaching (Mathematics Adolescent Education) in 5 years. Transfer students are not eligible for the 3+2 program. Students can also complete the Bachelors and Masters program independently.

Most future math teachers choose to do the BA in mathematics. [Here](#) are recommended courses for math BA students planning to be teachers.
