

Alternate Teaching Plan- Math 448

March 16, 2020

Instructor Name: David Renfrew

Course Number: Math 448

Course Title: Mathematical Statistics

Usual meet day and time: MWF 1:10-2:40

Course Website: <http://www2.math.binghamton.edu/p/people/renfrew/448-20>

There will be no in class meetings after March 16. (This includes no in class meeting on Wednesday, March 18.)

Notes and assigned reading will be posted on the course website. The notes will appear on the appropriate date of the calendar part of the website. The course website should be checked at each of the course meeting times.

If you find a typo in the typed notes on the website and are you first to report it to me, you receive extra credit on the final exam.

Questions about the assigned reading/ notes/ homework should be posted on Piazza. This can be done as private messages to the professor or public posts. Public posts are preferred, as other students can also provide answers.

The grading rubric will remain the same.

Instructions for turning in homework will be included on the assignment and require Gradescope.

Midterm 2 and the Final will be an at home exam and posted on blackboard, the exams will also be turned in on Gradescope.

During regular class times and office hours, I will hold virtual offices hours and answer emails. Virtual office hours will be held on Piazza.
