

# Flipped Calculus 1 at Binghamton

- Home
- Limits
- Derivatives**
- Applications
- Integrals

## The Derivative as a Function

---

*Section 2.2 in Stewart's Calculus.*

Classroom Slides PDF

Classroom Slides TEX

## Differentiation Formulas

---

**Video**

*Section 2.3 in Stewart's Calculus.*

**Preclass Learning Objectives:**

- Derivative formulas for powers and roots.
- Derivative formulas for sums/differences/products/quotients.

Classroom Slides PDF

Classroom Slides TEX

## Trigonometric Derivatives

---

### Video

*Section 2.4 in Stewart's Calculus.*

**Preclass Learning Objectives:**

- Familiarity with the limit of  $\sin(x)/x$  as  $x$  approaches zero.

Classroom Slides PDF

Classroom Slides TEX

## The Chain Rule

---

### Video

*Section 2.5 in Stewart's Calculus.*

**Preclass Learning Objectives:**

- Composition and rates of change.
- Chain Rule Formula.

Classroom Slides PDF

Classroom Slides TEX

## Implicit Differentiation

---

**Video**

**Video**

*Section 2.6 in Stewart's Calculus.*

**Preclass Learning Objectives:**

- An equation implicitly defines many functions.
- Implicitly versus explicitly defined functions.
- Basics of Implicit Differentiation.

Classroom Slides PDF

Classroom Slides TEX

## Rates of Change in the Sciences

---

*Section 2.7 in Stewart's Calculus.*

**Preclass Learning Objectives:**

**Video**

- Instantaneous Rates of Change are everywhere!

Classroom Slides PDF

Classroom Slides TEX

---

## Related Rates

**Video**

**Video**

*Section 2.8 in Stewart's Calculus.*

**Preclass Learning Objectives:**

- Rates of change can be found by implicitly differentiating an equation. This technique is useful in obtaining information in natural, less mathematical, settings.
