

BUGCAT 2014

The 7th Annual Binghamton University Graduate Conference in Algebra and Topology was held on October 18-19, 2014. It was again a great success with about 90 registered participants (from many states and two countries) and two excellent key note speakers, Justin Moore (Cornell University) and Danny Calegari (University of Chicago).

This event is organized by our graduate students for graduate students. In addition to the key note talks, there were 26 talks given by graduate students over the weekend.

A group photo taken by Prof. [Matthew G. Brin](#) is posted here.
