Math 227 will have additional video quizzes based on material from the instructional videos on WebAssign. You should watch each instructional video (or, if you prefer, read the corresponding section of the textbook) before we cover that video's topic in class. On days when a video is required, I will flip a coin at the start of class to determine whether or not we will have video quiz on the contents of the video. You may consult your own handwritten notes during video quizzes, but nothing else.
