

# Math 227 Fall 2016 Sections 40 and 41

## Links

[Syllabus](#)

[Weekly Schedule](#)

[WebAssign](#)

[Skills Test Reservation System](#)

## Test Distributions

	Maximum score	1st quartile	Median	3rd quartile
<b>Test 1</b>	120	55.75	71	88.25
<b>Test 2</b>	120	74	93	105

Scores above the third quartile indicate a very good level of understanding. A score below the first quartile on Test 1 is cause for concern. Students with low scores should seek additional help outside of class, or consider withdrawing.

## Practice Tests and Study Help

The following practice tests were written before the implementation of the Skills Test in Math 227, so there is some overlap between Practice Test 1 and the Skills Test. This semester's Test 1 will cover more material from sections 11.3-11.7, and less material from sections that were already covered by the Skills Test.

[Practice Test 1 \(with solutions\)](#)

[Practice Test 2 \(with solutions\)](#)

[Test 2 Tips](#)

## Assigned videos

Watch each of these videos before we cover the corresponding section in class.

[11.1A Sequences](#)

[11.1B Sequences](#)

[11.3 The integral test and estimates of sums](#)

[11.9 Representations of functions as power series](#)

[11.11 Applications of Taylor polynomials](#)
