- **Personal website:** [https://avelasq4.wixsite.com/Andrew Velasquez-Ber](https://avelasq4.wixsite.com/Andrew_Velasquez-Ber)
- **About Me:** The branch of mathematics I am most interested in learning about is that of algebra, particularly group theory and its applications. Other branches I am interested in are complex analysis and differential equations.  
I minored in psychology during my undergraduate and I hope to teach college mathematics through a psychological approach, aiming to use psychological principles and methods to engage students in the classroom and facilitate their comprehension of material.  
During my free time, I like watching comedy and horror shows/movies and listening to pop, alternative, and metal music.
