

Laura Anderson and Chris Eppolito (Binghamton)

A Selective Summary from the September CIRM meeting "Combinatorial Geometries"

Abstract for the Combinatorics Seminar 2018 November 20

The recent matroids meeting at the CIRM in Luminy, France, was a week filled by much talk of matroids and their friends. We recount some talks we found intriguing—be you matroid or anti-matroid, we hope these tales from Luminy might be of some minor interest to those with the nerve to attend.
