

Statistics Seminar  
Department of Mathematical Sciences

<b>DATE:</b>	Thursday, April 2, 2015
<b>TIME:</b>	1:15pm to 2:15pm
<b>LOCATION:</b>	WH 100E
<b>SPEAKER:</b>	Mary Lowry (Binghamton University)
<b>TITLE:</b>	Stein's two-stage estimation procedure: A case study

**Abstract**

We offer a numerical case study of the performance of Stein's (1945) two-stage procedure to estimate the unknown mean of a normal population with unknown variance.
